Graduate employment rate after five years	86%	74%	81%	68%	90%	76%	60%

ANC Post-Graduation Success Indicators, 2017-2023

Data for these post-graduation success indicators are presented for the year in which they are collected, not the year of graduation. For example, 2017 data for the “percentage of transferring graduates completing transfer programs within five years” show results for students who graduated in 2012. Alternatively, 2017 data for the “non-transfer graduate employment rate after one year” reflect the employment status of 2016 graduates who did not transfer.

---

<sup>1</sup> This includes students who transfer to another baccalaureate degree-granting institution, as well as graduates at the associate degree level who enroll in ANC’s Aaniiih Nakoda Ecology B.S. degree program or A.S.N. degree program for Registered Nursing.
